jam	siapa	buat apa	sama siapa
5:05	Sarang	tapi kami belum bisa lihat apakah dalam Sarang atau tidak	
5:28	masih diam	tak terdengar Suara apapun ter kecewa Suara kedih yang terdengar disekitar kami dan seperti tiupan yang ter jatuhnya.	
5:38	terdengar	Suara kencing, tapi kami belum bisa tentukan / pastikan selesai sekitar jam 5.41--!	
5:49	keluar dari Sarang	tapi kami belum berani jelus melihatnya. karena masih keadaan gelap.	
5:51	terdengar	seperti Suara beraknya jatuh tapi itupun belum bisa kami pastikan karena kami / Fikar hanya dengar suaranya.	
5:53	dia sudah mulai memetik buah malaka misti pun pegemut	lagat sedikit untuk melihat tapi takut selalu priksa buah yang jatuh yaitu buah malaka yang pas di mulutnya. karena mungkin memang terlihat bergerak gerak diantara cabang malaka..!	
6:38	Setelah ia memetik buah malaka yang ada di ujung cabang dan memang pulkan nya dalam mulut yang sudah dibuang kulit nya. lalu duduk dan santai sambil mengunyah-mengunyah kadang-kadang mengunyah dengan kulitnya juga..!		
6:46	kencing dan buah dengan cara digantung dan tangan kirinya tetap memetik malaka. Sementara tangan kanan memegang cabang malaka...!..		
6:57	mengorek cabang kayu seperti mencari Ryp.		
7:06	mencari Ryp lagi. dengan cara mengupat 5. mengupas kulit kayu. dan mengambil nya dengan cara menghirup dengan mulut...! menjilat		
8:35	dia masih duduk dan masih isitabat diantara cabang pohon malaka sambil mengunyah cabang atau buah yang mungkin bisa dipetik..!		
9:01	mengeluar kan Suara seperti kentut...!		
9:04	makan daun muda jenis pohon Rp. ataupun Desak biasa.		
9:10	Setelah olah ia (R) lalu kemudian ia mencari Ryp atau Serent..!		
9:23	makan Ryp. (Sangat dengan cara mengupat kan legan atau punggung telapak tangan nya. pada serent yang sudah di gigitnya.		
9:30	ia menggarat ketiak atau bulu yang panjang dekat ketiak ter sebut mungkin serent serent yang digarunya, menggar ketubuh / ketubuhnya...!		
9:50	kisuk yang terus menerus mungkin ia melihat serent yang sudah ada pun yang jarang dimata nya.		
9:51	N. Gase (Ayatany) mulai merambat ke ranting dan dahan. cabang yang dibuat Sarang di buat kan ke batang lain dan merambat ke cabang (Ranting kecil dari pohon pin Bayu jar (50cm		
10:49	Selesai. Lang Suny gdek dengan posisi kaki kedua dari Sarang dan tangan nya meremang ke kayu yang ada diatas nya...!..		
10:44	(R) memeluk pohon sambil melihat kebawah		
10:54	mematah kan ranting. Seperti memukul Sarang tapi seperti tingu bukan Sarang dia hanya bikin ter put batuan badan nya. Setelah di ranting dan dahan ter 8 bar. dia hanya pakai untuk isitabat. Sambil duduk pohon sambil tara setelah balah badan nya di Sarang sambil tara yang dibuat hanya untuk Rifting atau isitabat Sarang		
10:59	Kencing sambil bangk dengan posisi duduk Sambil memamati pohon di sekitar nya.		
11:04	Kencing sambil berdiri sementara ketika tangan nya memegang cabang yang ada diatas nya...!

816	Juga fruits (M) but still lots of fruitless left looks like she goes for the easy method The fruitless that she gets from around the the cat's rest just spit out with wait. All these milk trees were within 10m		
814	She moved really fast out of the tree, + a branch falls down. → display + missile? we were changing position so that that could have triggered it		
815	Langsun she ant's kept report can rump		
818	Langsun sit on top of a fence. All this time arms leaning on knee		
851	She's looking around (direction 330°)		
852	She moves + Langsun starts F (upon same) at		
859	18:00:25 381 + 3803 Again spits water out as well		
861	Langsun with left hand underneath right armpt 1 Fly! react		
866	we		
868	mt too so		
900	She brings piece of bark off of the trunk, hear slurping + smacking sounds		
903	are 'slurps' the ant's off the trunk with her mouth, throat		
911	Now more like 'chomp' sounds in stead of slurping, followed by slurping + breaking bark off as well Everywhere you hear sound, you see opposite going down		
912	alongside the trunk. When that's finished you hear the chewing sounds		
918	definitely not only trunk chewing as well - I can't find not a single		
922	wrap		
923	with flat hand picking ants off trunk using both hands lifting the		
924	ants off of her thumb and of the back of her hand		
925	Now + then scratching body or picking/scratching them from body + scratching		
926	body left right leg, belly, left side		
927	For moment he bends down towards us as having a closer look (forase)		
928	lean more backwards → sitting more comfortable on rebar, reaching further		
929	ending more forward again		
930	FS, like gently touching palm with index finger		
931	then left taking them from pink as well though not stilling pink		
932	holding more towards trunk. head + 10 cm from trunk, still using		
933	hands though to pick ants off trunk		
935	picking ants from body		
936	scratching her shoulder with her right hand, picking ants + scratch left		
937	shoulder		
938	scratch left side neck (later shoulder)		
943	scratch her shoulder		
944	Now picking them from other tree directly next to it with left hand		
945	right hand scratch left side		
946	* walking display tail → also waving		
947	scratch her belly again		
948	report she makes sounds that sound like the bubbles of a longcall		
949	3x + 2x		
950	gung again 2x + 2x + using clapper 6x looking at 200° (I'm		
951	standing at 200° last usg was at 9:50 while she was sitting in		
952	a different position looking in a direction 200°

		look 110°	
		thin branch other tree	
		trunk tree, arm around it	
gs9	M while pengamat dibaw	but only for a bit and not looking at observer	
1002	Scratches right shoulder with right arm		
1006	-moving couple of times		
1017	arm lepas → berarti tidur?		
1020	arm behind neck again		
1025	pegang batang lagi		
1026			
1028	both arms moved again behind neck		
110625	jalan with 2 foot on branch, hands holding branch above		
1108	while Mt the tree gives a "squeak" sound		
	F snt / rayap breaking pieces of bark off + smack sounds → rayap		
	scratches with right hand left shoulder		
1110	Fryp lagi: same position (while looking in our direction) taking		
	rip the same way as snt as soon as she broke off pieces of bark → FS		
1111	Still these weird sounds in the background (same distance + 50m) though we moved 100m already. It is also the direction she is looking at but we are also standing there & though she is not looking down (any more)		
1113	Look at trunk for ants → leafy From the tree nearby she longingly slurps ants with mouth directly of the trunk (lobang)		
		lobang (sort of a "nod" from former branch)	
1114	Now looking at 180° (sounds of birds) + starts F snt again longingly with mouth a bit higher up + picks them once with hand + scratches her left side with the same right hand		
1115	Lift herself up vertically using only her arms (not pushing away with legs)		
1116	right hand scratches right side		
1117	She scratches a long time her belly with her right hand (several seconds)		
1119	F fr Mlk 25 + lagi		
1120	I smell a really nice "sweetish" smell		
1122	picking fr 1 by 1 + looking for a sitting spot, there start chewing (same as before), facing our direction again and looking at the fruits in the tree		
1125	scratch belly? (halfway front side)		
1126	I hear trees moving ca 50m away at 158°		
1138	scratch belly again		
1140	jumpa rintis lama from east to west still really clear it's a rintis!		
1142	I was speaking with a damped voice though not whispering. She straight away moved		
1145	F fr Tamaling? / Papan? She is sitting in Tarantang tree and there is a punia tree next to it		
1150	F fr Mlk (n) - keal

	siapa	buat apa	sama siapa
1206	Branch almost brakes while moving into another tree. She moves back fast to grab for more support. Though she does try again, eventually she doesn't move over into the other tree but continued in stead F & Mlk again (3 Mlk trees within 10 meter)		
1217	She looks as if wearing a sort of swimsuit  bulu gelap/botak		
1220	She moves back and forth in between 2 Mlk trees		
1223	She looks at me shortly when I close my lunchbox, then facing south again (1224) kencing		
	The hairs at her back/neck look like forming a collar 		
1229	She is eating ants by putting the back of her hand against the trunk and subsequently slurping the ants of her hand accompanied accompanied by lots of slurping sounds and feeding smacks (FS)		
1232	She brakes off lianas and moves them aside to get to the ants easier		
1234	She peeks with short strokes + fast strikes on the trunk (almost like hitting a baseball!) She scratches the right side of her ass with her right hand		
1239	" " " " " " " " " " " "		
1243	She licks/slurps the ants off 2 fingers (fast movements again); first 1 finger than the next.		
1245	The ants she is eating are quite big (1.2 cm) as I can still see them walking on the trunk from a distance of ca 10 m. 		
1247	When chewing you see her whole mouth moving		
>1247	Occasionally she seems to pick them off the leaves as well but I can't verify that as the ants could be also just crawling on her hand		
1249	She just both hands to get the ants.		
1251	She scratches her front side of body vertically		
1252	She scratches her belly horizontally, + she is always getting the ants with the back side of her hand & with the upperside of her fist.		
1254	She scratches her belly 3x: you can really hear the scratching as she is scratching quite hard with pointed fingers/nails.		
1255	She scratches her breast/belly + eats the ants from a dense bit of lianas including a few big lianas		
1256	She scratches her back for a moment lightly (softly)		
1257	She scratches her throat pouch (underneath her chin)		
1300	It is all of a sudden very windy (noisy)		
1302	Sometimes she switches the arm she is hanging on (liana) and the hand she is eating with

jam	siapa	buat apa	sama siapa
1304		She scratches her sholder	
1307		It seems she kind of spits the ants to the upperside of her mouth.	
1318		She straightaway travels to a tree with dead + dry branches in it She brakes off more branches, all with dead/dry leafs and F ants You hear sharp sounds She scratches her belly shortly (with 1 strike - almost not touching body) maybe it was just a kind of routine movement, like when bored.	
1340		She scratches her arm	
1341		She brakes branches off of the trunk and feeds on the hole in the tree. The branch she didn't look old at all and she used some force to brake it She has a piece of bark in her hand and is eating rayap from it (exactly like the orangutans do in Tuanan) turning the piece of wood wood, braking/biting pieces off. Here the rayap feeding that I saw so far (in Snag) has been on thin branches.	
1348		She moves a bit, many leafs fall down → photographed.	
1354		She scratches her belly	
1358		F ants (rayap) from branch	
1405		Windy again	
1420		also F lv roarak payo	
1425		jumpa rintis	
1436		She is looking at us	
1437		F ants lungsurung with mouth from trunk pulling also lianas loose from the trunk (don't know what for maybe for her to hold on to). Frequently slurping sounds can be heard.	
1444		F ants from tree hole or broken off branch end (now start) of broken off branch)	
1445		She tries all the treeholes (ends of former branches?) on the tree with her lips on it + sucking madu (heringpt)? out?	
1711		She scratches her right armpit with her left hand 3x + again 2x. santai	
1712		Left arm scratches left side of her arm (all this time Mc ↑ slowly) F lv with mouth directly from branch, feeding smacks can be heard. she scratches again.	
1714		F milk while dudulu, she scratches her belly/side again)	
		FR: 1 fr in 20 seconds.	
1715		Scratches eyes.
