1801	Frisca makes Nest, Freddy watches her	from 2m above, Elly is more down (another tree already as M dulu), 5m lower	
1803	Elly climbs up again < 2m, also bit above Frisca & the Nest. Freddy comes down a bit. Both are directly above Frisca. Elly watches Frisca building the Nest		
1804	Elly climbs higher up (nj > 5m) and pulls the top of the tree down by hanging on the branches and pulling it down with a strong, short pull. It seemed as she pulled the top of the tree down and formed thereby a platform on which she is building the nest by folding more branches in (from that height)		
1807	2 raspberries Elly while making alas (start making alas) 1 raspberry Frisca after watching Elly for a bit (still alas) 1 raspberry Elly again 2 raspberries Frisca, breaking branches and pulling them alongside mouth (seemed without direct contact mouth-branches) 1 raspberry Elly folding branches at the other side of the nest. Frisca is still working on the alas.		
1810	Elly gelede, seemed Elly at last made a pillow. Elly still kind of seems to be watching Frisca from her nest		look into direction N Ibu
