11.08					13.26					1450	I catch a piece of fr from which only a quarter of the seed seems to be eaten. Oh the rest of the seeds fall down as a whole, so he seems to be eating the kulit and perhaps digesting if there is any as only seeds are falling down	
11.10					13.28					There are also almost no fr on the ground and he seems to be eating only the big fr as the seeds he spit out are big as well		
11.12					13.30					1414	! Around here it started to rain	
11.14					13.32					1450	He is holding the fruits in his hand turning it in the hand while eating the kulit around the seeds (holding fr like apple)
